

# Feather Friendly® Warranty Statement

Convenience Group Inc. developed a technology to apply visible markers to the exterior of windows to mitigate bird collisions thereby reducing bird deaths.

The pattern of the “markers” are of a specific colour and spacing and have proven effective in reducing bird strikes by allowing the birds to see the barrier rather than flying into the space.

These technologies are marketed by Feather Friendly® Technologies<sup>1</sup>.

The base product is a 3M™ film that is further converted by Convenience Group Inc.
