

**CONVENIENCE
GROUP**

Convenience Group is the pioneer Feather Friendly, Riot Glass and 3M Authorized Dealer in the greater Toronto Area. We provide various security solutions for your projects across the nation by a knowledgeable group with over 50 years of experience supported by a fully equipped print and production internal facility. Thanks to this skilled crew, we are able to offer our consultation, design and installation services across Canada.

We're excited to introduce a new integration of the unparalleled strength of Riot Glass with the proven bird collision prevention of Feather Friendly™ markers. This collaboration represents a significant step forward in combining security with conservation.

FIRST SURFACE APPLICATION APPROVED:

Feather Friendly™ has officially approved the application of their bird deterrent markers on the first surface of Riot Glass. This approval ensures that both products can be seamlessly integrated without compromising the aesthetics or functionality of your building.

WHY THIS MATTERS:

For the Client: Assurance that the combination of Riot Glass and Feather Friendly™ is not only possible but highly effective.

For Architects: Clear documentation demonstrating the feasibility of applying Feather Friendly™ markers on Riot Glass, facilitating smooth project approvals.

For the Environment: A commitment to preventing deadly bird collisions while maintaining the integrity and security of the glass surfaces.

WE'VE GOT YOUR BUILDINGS COVERED WITH FEATHER FRIENDLY™ & RIOT GLASS®

Unmatched Durability: Riot Glass offers top-tier security, while Feather Friendly™ markers maintain their effectiveness and unobtrusiveness for over 15 years.

Minimal Visual Impact: Feather Friendly™ markers cover only about 8% of the glass surface, ensuring that building aesthetics and views are preserved.

Conservation Approved: Endorsed by leading conservation organizations, including the Fatal Light Awareness Program (FLAP) and the American Bird
